

The Daily Courant.

Friday, April 25. 1718.

From the Paris Gazette, dated April 30.

Naples, March 29.

ON the 26th Instant, Count Thaur set out Post to go to Gaeta and Capua, to visit the Works that are begun for repairing the Fortifications, and in making new ones round those two Places. Orders were sent at the same time, to the Syndics of Barletta, to prepare 150 Chambers ready furnished for the Officers of the German Troops, who are expected from Manfredonia, and those that are arrived at Fiume. The Jesuits of Orta, and other Religious, are tax'd in great Sums, and oblig'd to furnish Waggon and Mules, with Bread and other Provisions for the Troops. The Estates belonging to Foreigners have also been Tax'd at half their Value, for the same Use. The Inquest of the Revenues of vacant Benefices, for putting them in Sequestration continues with extrem Rigour, and has occasion'd so many Complaints, that they have been oblig'd to examine the Conduct of those who were charg'd with it. Those Complaints were found so just, that the Regent Mazzacara who had the principal Direction of that Business, has caus'd a Secretary of Salernio and another Commissary in that Inquest to be imprison'd, having found them guilty of many Misdemeanours. Two Hundred Men of recruits for the Italian Regiments that are in Hungary, are departed to go to Manfredonia, where they are to be embark'd, and they are strictly guarded, because many have attempted to Desert.

Rome, April 5. The Sieur Herrera, Auditor of the Rota for Castille, had last Week an Audience of the Pope, Cardinal Acquaviva being ill of the same, and he made pressing Instances upon the Expedition of the Bulls for the Archbishoprick of Seville in Favour of Cardinal Alberoni, giving to understand, that the Continuation of the Refusal may oblige the King of Spain to take the Measures that his Predecessors have done on like Occasions. He also gave Advice to his Holiness, of the approaching Arrival of the Fleet of his Catholick Majesty in these Seas, and hoped that Leave would be given to them to come into the Ports of Civita Vecchia and Ancona, to take Water, and the necessary Provisions. Cardinal Acquaviva being ready to send a Courier to Madrid upon that Subject, he received a Note from Cardinal Paulucci, and being something better in Health, he went to the Palace himself, and after having conferr'd some time with him, he sent away the same Courier. On the 1st of this Month arrived a Courier, dispatch'd from Civita Vecchia by the Grand Prior Peretti, General of the Gallies of the Ecclesiastick State, who went directly to the Palace, to give Advice to the Pope that a large Squadron had pass'd by that Port, and it was not doubted that it was that which we know departed from Barcelona for Sardignia.

Hamburgh, April 26. Count Welling is returned hither from Cassel, whither he went to offer to the Landgrave the good Offices of the King of Sweden in the Affair of Rhynfels. The last Letters from Sweden advise, that in a great Council of War, it had been put into Deliberation, Whether would be most for the King's Advantage, either to make Peace first with the King of Great Britain, and afterwards treat with the Czar, or to conclude with the Czar first. The Majority gave their Opinions for agreeing first with his Britannick Majesty, but that Baron Gorts, who has always been of another Mind, prevail'd with the King to give on that Side, by representing to him, that it would cost him some Years and much Blood, to recover from the Russians what the Czar offers now to surrender up by a Peace; and that the said Baron was thereupon order'd to pursue his Voyage for Aland, in Order to bring the Negotiation to a

happy Conclusion, and to deliver, upon his Arrival to the Russian Plenipotentiaries the Answer to what his Czarish Majesty had propos'd for his Allies. In the mean time, the King of Sweden has received Letters from the Adherents of Stanislaus, wherein they desire his Majesty to send to restore Tranquility in the Kingdom of Poland, the rather, because it is design'd to impose upon them another Successor to the Throne of Poland; and it appears, that his Swedish Majesty has, in his Treaty with the Czar, reserv'd to himself the Liberty of Transporting Troops to Poland, to finish the War.

But these Advices are contradicted by M. the Baron de Mardefeld, the King of Prussia's Envoy with the Czar, who writes, that his Czarish Majesty has not been able to agree with the King of Sweden, because he will not hear any Talk of the rest of the Northern Allies, while the Czar would stipulate something for them; and that otherwise, that Prince was resolv'd to pursue the War with all his Forces by Sea and Land against Sweden. A little time will shew us what Ground there is for all these Advices.

We have Letters from Petersburg which say, that the Czar has impal'd alive those who advis'd the Czarowitz's Flight, and that an Arch Mandarite was stoned on the same Account.

They write from Rostock, that the Duke of Mecklenburg takes by Force Apprentices, and other young Workmen, to Lend to his Troops, in Order to compleat his Regiments by the 6th of May; and that his Highness has sent for all his Counsellours and Generals to Rostock, and 'tis believ'd he will form a Camp at Grebenbusch.

Hick's Hall, April 24. Mr. Hawes, who for 25 Years past has kept a Nonjuring Conventicle in his House, over against the Royal Palace of St. James's, being convicted thereof by two of his Majesty's Justices of the Peace, and Warrants being issued by them for levying the Penalties inflicted on such Offenders, by the Act of Parliament for preventing and suppressing seditious Conventicles; the said Mr. Hawes appealed from that Conviction to the General Quarter Sessions now held in this Place for the County of Middlesex; where after the Cause had been very learnedly argued on both Sides, for the Space of five Hours, by eminent Council at Law, the Conviction was this Morning confirm'd, the Jury, after a very short Consultation, having brought him in guilty. Upon Representation of his Poverty, His Majesty's Council propos'd to indulge him so far, as to remit the Treble Costs he had incurred by appealing, to which the Bench consented.

The pleasant Odoriferous Tincture for the Breath, Teeth and Gums, a few Drops of which instantly makes the most offensive Breath smell incomparably fine and charming, and a very short time perfectly cures, so that a disagreeable Breath will never return; it certainly makes the blackest and most foul Teeth extremely white, clean and beautiful at once, infallibly preserves them from decaying, and thence a little decay's, from becoming worse, absolutely cures the Scavry in the Gums, tho' never so inveterate, causing the Flesh to grow up to the Teeth again, when almost eaten quite away, and infallibly restores loose Teeth to Admiration, even in old People, who too often fly to think their Age to be the Occasion. In a word, for most delicately perfuming and quickly curing all ill-scented Breath, for immediately making the blackest Teeth most excellently white, certainly fastening them when loose, and effectually preserving them from rotting or decaying, and assuredly curing the Scavry in the Gums, it is not its equal in the World, of great Numbers of the best Quality and Gentry have experienc'd. Is sold only at Mrs. Osborn's, a Toyshop, at the Rose and Crown under St. Dunstons Church, Fleet-street, at 9d. 6d. a Bottle, with Directions.
